

18th September 2022

14th Sunday After Trinity

Community News

Northfield Community Partnership (NCP) Hub is open this week Tuesday-Friday 9am-5pm for any advice or support:

0121 411 2157

email info@northfieldcommunity.org
or just drop in at the NCP Hub, 693 Bristol Road South, Northfield, B31 2JT

Just Caring Midlands is a Christian Charity seeking to help and support young adults aged 18-25 in the Birmingham area. They aim to reach out to those who have fallen through the gaps in the official system; befriending and mentoring them for as long as needed. For information, call 07986 631887, email admin@justcaring.org.uk or visit the website <https://justcaring.org.uk/>

Birmingham City Council is partnering with The Green Doctor to offer personalised advice on reducing energy bills, including identifying causes of heat loss in your home, tackling damp and mould, advice on water and energy use, and managing debts. Home visits can be arranged. Go along to Holloway Hall, Ley Hill, Bartley Green B31 1TT on Tuesday 27th September between midday and 2.30pm, or call 0121 303 5359.

Is there an issue you feel passionately about? Would you like the opportunity to make change happen? Churchill Fellowships offer life-changing opportunities to spend up to two months discovering new approaches and best practice in your chosen area. They are open to all UK adult citizens with lived or learned experience of the issue they wish to address, regardless of age, qualifications or background. Applicants and projects that would not receive funding from any other source are prioritised. For more information go to: <https://churchillfellowship.org/news-views/news/apply-here-for-a-churchill-fellowship>

Eco Tip: The legacy of Her Majesty Queen Elizabeth includes eco-friendly changes to Buckingham Palace, some of which we could also consider in our own homes, including: using smart meters to identify where water and energy use can be reduced; LED lighting; installing solar panels; and introducing beehives and wildflowers in the garden. Other royal innovations may be a little too ambitious, however, such as converting your car to run on surplus English wine and whey from the cheese-making process, as His Majesty King Charles has with his Aston Martin!
